

## Odin Owns Ye All

**Einherjer**

I sit by the fires gleam all by myself  
Four empty chairs & one've been kept warm  
I drink to my kinsmen who sails now with Njord  
I drink to my kin who'll drink here no more

Odin owns ye all

I sing to them songs I wish their best on their way  
I'm sure a valkyrie found them in the battle that day  
I drink to my kinsmen who fought bravely at sea  
I drink to my kin who'll be missed not just by me

Odin owns ye all

To arms To arms - The kinsmen said  
They've chosen to meet us in battle today  
Fight Fight - The kinsmen said  
If we show true norse courage they'll soon run away  
Wrong Wrong - The kinsmen thought  
You cowards are fourty men may you rot in Hel  
Rise Rise - The valkyries said  
Odin decided this day you would die

I drink to my kinsmen  
Who sails now with Njord  
I drink to my kin  
Who'll drink here no more  
I drink to my kinsmen  
Who fought bravely at sea  
I drink to my kin  
Who'll be missed not just by me

Odin owns ye all
