

## Lost At Sea

Eisley

Sailing over wave and tide oh ho ho  
Fantastic waves against our sides oh ho ho  
And I'm not so afraid  
Lost at sea, as i should be  
And I'm not so afraid  
Lost at sea, you and I, you and me

Congratulations  
Cause we've made it  
All the way home  
All the way home  
And you know that  
Until the stars fall  
I will always love you  
I will always love you

The mystery of salt and sea oh ho ho  
Has never been intriguing oh ho ho  
And to me but the sea  
Green is set so beautifully  
Against your thoughtful face  
That I must close my eyes  
And turn my face

Congratulations  
Cause we've made it  
All the way home  
All the way home  
And you know that  
Until the stars fall  
I will always love you  
I will always love you

Still floating soft  
I am dreaming and I'm glad I lost  
And still with my fingers  
I'm drawing circles in the water  
In the water  
And still, still you're always there

Congratulations  
Cause we've made it  
All the way home  
All the way home  
And you know that  
Until the stars fall  
I will always love you  
I will always love you
