

# The Night Comes

Eisley

When the night comes  
I'll be the one with torches  
I'm shining on  
And when your head hit the bed  
that I'm lying on,  
I'll be your watcher through the night

Because I'm, I'm better than this  
And you all, you couldn't resist  
And that's ok because I love you all  
I love you all, I love you the most

And when I shut my eyes  
the facets of color in my lids align  
and your soft, fair voice it shouted in my mind  
It shouted in my mind, you shouted in my mind

Because I'm, I'm better than this  
And you all, you couldn't resist  
And that's ok because I love you all  
I love you all, I love you the most

Because I'm, I'm better than this  
And you all, you couldn't resist  
And that's ok because I love you all  
I love you all, I love you the most  
I love you all, I love you the most
