

Aggressor

Ektomorf

Your insidious fucked up fake smile
Your misery kills you inside

Your bleeding i smell it
Your blood stinks like bullshit
I can't take it no more
When i see your face i become an aggressor

You can't stop this burning fire
Your weakness makes me stronger

You're a liar a loser
Step back don't come closer
I can't take it no more
When i see your face i become an agressor

You pay back now
Or i fuck you up
You pay back now
Or i fuck you up

You're the thorn in my eyes
Get the fuck out of my life

You are a disgusting spineless leech

You're a liar a loser
Step back don't come closer
I can't take it no more
When i see your face i become an agressor
