

## Move On

Ektomorf

Move on  
When you hit the bottom  
You feel alone  
When your life is hell  
Move on  
When they spit on you  
They're put you down  
And no one cares  
Move on  
When you realize  
The one you trusted  
Just betrayed you  
Move on  
Open up your heart  
Keep your anger  
You know you're true

Move on  
Keep the will to fight  
Never look back  
Just go ahead  
Move on  
Know your enemies  
Be stronger  
And destroy them  
Move on  
Keep your head up  
Show your fist  
Show your pride  
Move on  
Do what you want  
Be who you are  
Free your mind

Move on  
No matter what  
Fight for your dreams  
Believe in your self  
Move on look on their eyes  
Break through the walls  
Be better than them  
Move on  
And if you fall  
Stand up and go  
Ignore the pain  
Move on  
If you lost your way  
Don't lose your faith  
You will find it again
