

Sexy Lady

El DeBarge

Hey sexy lady stay with me a while
Cause I hear voices every time that you smile
And I don't wanna look like a clown
But I could swear they're telling me you wanna to get close to me
And please don't get me wrong I'm not trying to flatter you
Cause girl I know you heard that all before, I won't break your heart
If you give me the chance I'll make it good to you
Ain't nobody gonna touch you like I wanna love you baby
Ain't nobody gonna need you like I wanna treat you baby, yeah baby
Ain't nobody gonna hold you like I'm gonna squeeze you baby, hey baby
All I need is one night with you now baby, hey sexy lady don't leave here alone
I put your coat and you follow me home
And we can get it popping tonight,
Cause I can tell you wanna be my fantasy my everything
And please don't take me wrong, I'm not trying to flatter you
Cause girl I know you heard that all before, I won't break your heart
All I need is just one night with night, and girl I'll prove it to you
Ain't nobody gonna touch you like I wanna love you baby
Ain't nobody gonna need you like I wanna treat you baby, yeah baby
Ain't nobody gonna hold you like I'm gonna squeeze you baby, hey baby
All I need is one night with you baby, oh baby
Just one night, oh baby, just one night
Just one night, all I need, all I need, all I need, all I need is just one night.
All I need is just one night, all I need is just one night, all I need is just one night.
