

I Gaze In Your Eyes

Elaine Paige

I Gaze In Your Eyes

I gaze in your eyes
And to my joy I find
That every fear which used to be near
Has gone, gone from my mind

I gaze in your eyes
And find even when you depart
That every care which used to be there
Has gone, gone from my heart

So give me your love
The love I shall always prize
That I may gaze
The rest of my days
Just gaze and gaze and gaze
In your eyes

I gaze in your eyes
And find even when you depart
That every care which used to be there
Has gone, gone from my heart

So give me your love
The love I shall always prize
That I may gaze
The rest of my days
Just gaze and gaze and gaze
In your eyes
Let me gaze and gaze and gaze
In your eyes
