

# **Livin' One's Own Dreams**

**Elán**

Wheels of the fortune turning and turning  
Once I am up and once I am down  
Lucky and lucky days I am living  
Let's keep the smile on - I love the clowns

Out of fire and desire  
One day it's gonna burst out  
Let the time of mine expire  
That will be a total blackout

They're gonna teach me lessons of heaven  
They're gonna teach me lessons of hell  
I've got the power for now and ever  
I'm gonna make it - break from the jail

Out of fire and desire  
One day it's gonna burst out  
Let the time of mine expire  
That will be a total blackout

Burning freedom funny races  
Let's be those who are so crazy  
With the fools who insist to be free  
Happy children of the fire  
With the guys who can't be hired  
With the chance we are living our dreams

Maybe our angels will lose their temper  
Maybe that Kerouac just hand it back  
Maybe the last door should not be empty  
There's many colours but blood is red

Out of fire and desire  
One day it's gonna burst out  
Let the time of mine expire  
That will be a total blackout

Burning freedom funny races  
Let's be those who are so crazy  
With the fools who insist to be free  
Happy children of the fire  
With the guys who can't be hired  
With the chance we are living our dreams

Out of fire and desire  
All the things that we admire  
They are one, they are crazy and free...
