

Living In The Streets

Elán

Living in the streets tonight gee in teen
Round a bubbly mister feats
You get one-way ticket free
Traffic lights saying go
Grass and pines
You need to be a VIP
To see what's going on

At the shining city skyland
At your feet
Time goes breaking
Time goes shaking
Be living in the streets
Let's go dancing and romancing
All you need
Time goes breaking
Time goes shaking
And living in the streets

Living in the streets tonight gee in teen
And the giant point of her line
You get place well to be
Used to have having around (around)
Pass and leaks
And swifiting thru the city sounds
Together as in trees
