

## Love Like Ours

Elastica

getting better, on your feet  
take a look, kept in deceit  
a love like ours will never die

break my bonds, break my back  
not a lot to break apart  
a love like ours will never die  
a love like ours will never die

break my bonds and break my back  
not a lot to break apart  
a love like ours will never die  
a love like ours will never die

getting better, on your knees  
three times blind, could not please  
a love like ours will never die  
a love like ours will never die  
a love like ours will never die
