

## Don't Mix Your Drinks

Elbow

Don't mix your drinks  
Don't mix with him  
It will kill you one day  
Good advice, sound advice  
Why can't you be  
Like him, like me  
Look what you could achieve

I'm coming cap in hand  
Begging you to listen  
Something draws me in  
And I just can't christen it  
Just can't christen it

Don't mix your drinks  
Don't mix with him  
It will kill you one day  
Good advice, sound advice  
You need to be  
Like this, like me  
Look what you could achieve

I'm coming cap in hand  
Begging you to listen  
Something draws me in  
And I just can't christen it  
Just can't christen it
