

Fallen Angel

Elbow

Oh, all the fallen angels
Roostin' in this place
Count back the weeks on worried fingers
Virgin Mother, whats'erface

You don't need to sleep alone
You bring the house down
Choose your favorite shoes
And put your blues on cruise control

All the gelded mongrel
Bear their teeth for you
Drop your feathers 'cross the dancefloor
Flow your shapes electric blue

You don't need to sleep alone
You bring the house down
Choose your favorite shoes
And keep your blues on cruise control

Don't fall to pieces
Oh no, don't fall to pieces

You don't need to sleep alone
You bring the house down
Choose your favorite shoes
And keep your blues on cruise control
