

I should know better, than to love you forever
But that is what I'm dying to do
So come be my plaything
Make love in my daydream
You know that I'll be waiting for you

Be my invader my cosmic crusader
You know that I'll be waiting for you
So give me affection when we get to heaven
You know that I'll be waiting for you

Since you've been away I'm trying not to miss you
You know that I'm behaving like a fool
Since you've been and gone and I'm crying out to kiss you
You know that I'm behaving like a fool
So come be my plaything make love in my daydream
You know that I'll be waiting for you

Be my invader, my cosmic crusader
You know that I'll be waiting for you
So come be my plaything, make love in my daydream
You know that I'll be waiting for
You know that I'll be waiting for
You know that I'll be waiting for you

You know that I'll be waiting for you
