

# Back On Me

Electric Guest

Pecking all at my head  
She's pecking all at my head's scum  
My scalp is starting to bleed from all the pecking done  
How could I make it worse?  
Must have been me being myself  
Maybe this could work if I could just be someone else

Falling back on me  
Don't forget how ruined I am  
Falling back on me  
Don't forget that I'm still the same

I was the ugly Earth  
Ugly Earth beneath your two feet  
Must have had to fall upon your knees for us to meet  
Can you believe it now?  
Now you have the time that you need  
Find another young dumb thing and make him bleed

Falling back on me  
Don't forget how ruined I am  
Falling back on me  
Don't forget that I'm still the same

Waking up again  
The girl is mad as a hatter  
Both of us know we can only see the end  
Still want it to matter
