

## Control

## Electric Guest

We are close to war  
Everything we know is  
Open after all the change  
We all see the door  
Hoping it'll open  
Something in a major way

And you are, you are, you are  
Looking at a brand new day

We are in the war  
Even though we know it  
Everyone remains in play  
We all wish for more  
Only way to go is  
Try to give it all away

And you are, you are, you are  
Looking at a brand new day

The sun won't let up  
We've all upset our show  
The wait gets better, though  
And we hope you are  
And you are, you are, you are, you are, you are, you are

O-Oh, say we're all together  
Pray that things get better soon  
Stay, we all suffer the cold  
Still, I know we are  
And you are, you are, you are, you are, you are, you are

O-Oh, say we're all together  
Pray that things get better soon  
Stay, we all suffer the cold  
Still, I know we are  
And you are, you are, you are, you are, you are, you are  
O-Oh
