

# All My Life

Electric Light Orchestra

All my life I was looking for you  
And suddenly you are there  
All my life I knew what I would do  
Just stand there like a fool and stare

(All my life) All my life  
(All my life) All my life  
I'm so glad I found you  
I just wanna be around you  
All my life

All my life I searched for you  
But you were never there, were you?  
Thought I'd found you once or twice  
It was a sad affair or two

(All my life) All my life  
(All my life) All my life  
I'm so glad I found you  
I just wanna be around you  
All my life

(All my life)  
(All my life)  
I'm so glad I found you  
I just wanna be around you  
All my life

Yeah, yeah, all my life
