

cold feet

Electric Light Orchestra

Was that you out last night?
You got cold feet
Out there under the light
On the old street

You got cold feet
You got cold feet

Was that you out last night?
You got cold feet
You stepped out late last night
You got no heat

You got cold feet
You got cold feet
You got cold feet
You got cold feet

Was that you out last night?
You got cold feet
You were gone from sight
You got no sleep

You got cold feet
You got cold feet
You got cold feet
You got cold feet.
