

## cold feet

Electric Light Orchestra

Was that you out last night?  
You got cold feet  
Out there under the light  
On the old street

You got cold feet  
You got cold feet

Was that you out last night?  
You got cold feet  
You stepped out late last night  
You got no heat

You got cold feet  
You got cold feet  
You got cold feet  
You got cold feet

Was that you out last night?  
You got cold feet  
You were gone from sight  
You got no sleep

You got cold feet  
You got cold feet  
You got cold feet  
You got cold feet.
