

# Easy Money

Electric Light Orchestra

One, two, three

Tell me I'm mistaken  
I must be kinda slow  
But the only time you ever cared  
Was when you needed more

Easy money, easy money  
You got out of control  
And you sold your soul for  
Easy money

If you see a sucker  
Standing at your door  
Bring him in and make him grin  
Then take him to the store

Easy money, easy money  
Watch out from above  
You broke into the bank of love  
Easy money

Some people never learn to stop when they've had enough  
Easy money, easy money  
Some people only have to shop when the going gets tough

I've come to the conclusion  
It's like the old man said  
The only thing you gave me  
Was shit and promises

Easy money, whoa whoa whoa, easy money  
One day you'll have to earn  
All the money that you burn  
Easy money

Take it, Jeff

Easy money

Whoa, whoa, yeah

Some people never learn to stop when they've had enough  
Easy money, easy money  
Some people only have to shop when the going gets tough

Funny thing about it  
Don't even make me blue  
'Cause there's no better deal around  
Than saying goodbye to you

Easy money, easy money  
You snatched that cash  
Right into your stash  
Easy money

You got out of control

And you sold your soul  
For easy money

Easy money, woo woo woo, easy money
