

# End Of The Road

Electric Light Orchestra

There was peace and quiet for me  
Down the walk, beside the sea  
Things are going wrong, boy  
Things are going wrong

I used to wake up in the morning  
To the sound of the birds singing at my window  
Please wait for me  
I'll be there at the end of the road

Now the good things gone with the wind  
It's back today, I've moved away  
Things are going wrong, boy  
Things are going wrong

I used to wake up in the morning  
To the sound of the birds singing at my window  
Please wait for me  
I'll be there at the end of the road
