Melting in the Sun

Electric Light Orchestra

There's no way out and there's no way back Sailing forever out along your path Some troubles dare to lose you sleep I started thinkin' that I'm in too deep

The wheels of life will stretch your face Squeeze you flat without a trace But when I was in trouble, I never heard you speak I got the message that I'm in too deep

Blows my mind
Melting in the sun
Starts to shine
Then suddenly it's gone
Melting in the sun

Stayed up and wondered what was goin' on Shifted and pissed up and silent and gone Reasons for promises that no one could keep I got the picture and I'm in too deep

Blows my mind
Melting in the sun
Starts to shine
Then suddenly it's gone
Melting in the sun

There's no way out, the only way is in Don't matter who you are
Don't matter where you've been
You can buy your freedom
But it don't come cheap
No doubt about it, now I'm in too deep

Blows my mind
Melting in the sun
Starts to shine
Then suddenly it's gone
Melting in the sun

Suddenly it's gone Melting in the sun Suddenly it's gone Melting in the sun
