

# On The Run

Electric Light Orchestra

Whatever I do, wherever I go  
The same afterglow is keepin' me low  
Don't wanna lose it  
But don't wanna stay here too long

They see you go by, I tell you no lie  
You're up in the sky, make everyone cry  
Don't wanna lose it  
But don't wanna stay around here

I'm on the run again  
I'm on the run again  
But it's like what they say  
when it happens this way  
You gotta do it again and again

I hear them talkin' and they go on and on  
They think that nothing is wrong  
and so they just carry on about you  
Don't wanna lose it  
But I gotta move out of here

I see them waiting there for most of the day  
I know you asked them to stay  
but they just won't go away  
Don't wanna lose it  
but I gotta do it again

I'm on the run again  
I'm on the run again  
But it's like what they say  
when it happens this way  
You gotta do it again and again

I know it ain't real, but when you are near  
You're saying the things that I wanna hear  
Don't wanna lose it  
But I gotta do it again

I'm on the run again  
I'm on the run again  
But it's like what they say  
when it happens this way  
You gotta do it again and again

I'm on the run again  
I'm on the run again  
But it's like what they say  
when it happens this way  
You gotta do it again and again
