On The Run

Electric Light Orchestra

Whatever I do, wherever I go
The same afterglow is keepin' me low
Don't wanna lose it
But don't wanna stay here too long

They see you go by, I tell you no lie You're up in the sky, make everyone cry Don't wanna lose it But don't wanna stay around here

I'm on the run again
I'm on the run again
But it's like what they say
when it happens this way
You gotta do it again and again

I hear them talkin' and they go on and on They think that nothing is wrong and so they just carry on about you Don't wanna lose it
But I gotta move out of here

I see them waiting there for most of the day I know you asked them to stay but they just won't go away Don't wanna lose it but I gotta do it again

I'm on the run again
I'm on the run again
But it's like what they say
when it happens this way
You gotta do it again and again

I know it ain't real, but when you are near You're saying the things that I wanna hear Don't wanna lose it
But I gotta do it again

I'm on the run again
I'm on the run again
But it's like what they say
when it happens this way
You gotta do it again and again

I'm on the run again
I'm on the run again
But it's like what they say
when it happens this way
You gotta do it again and again
