

# Out of Luck

Electric Light Orchestra

If you think I'm waitin' round all night  
And if you think there's gonna be a fight  
And if you think I'm gone from your sight  
You're out of luck

If you think I'm waitin' by the phone  
And if you think I'm sittin' home alone  
If you think you're gonna see me gone  
You're out of luck

Out of luck, out of luck, out of luck  
You're out of luck, out of luck, out of luck

Out of luck, out of luck, out of luck  
You're out of luck, out of luck, out of luck

So I'm tellin' you just one more time  
Everything you say is way out of line  
'Til your lucky star begins to shine  
You're out of luck

'Til your lucky star begins to shine  
You're out of luck

Hey, 'til your lucky star begins to shine  
You're out of luck (out of luck)  
Out of luck (out of luck).
