

Secret Lives

Electric Light Orchestra

I don't know,
I don't know what's on your mind
I thought everything was fine,
But it was my surprise

I don't know,
I don't know what's going on
Something surely must be wrong,
You're living secret lives

Living secret lives, secret lives
And I wonder where she goes to in the night
In secret lives

Wish I knew,
Wish I knew where I fit in
Wish that I knew everything
About your secret lives

If it means,
If it means that much to you
I don't want to stop the things you do
I don't need alibis

Living secret lives, secret lives
And I wonder where she goes to in the night
In secret lives

I don't care,
I don't care what goes on there
As long as one day I can share,
Share your secret lives

Living secret lives, secret lives
And I wonder where she goes to in the night
In secret lives

Secret lives, living secret lives
And I wonder where she goes to in the night
In secret lives

Secret lives, secret lives
And I wonder where she goes
In secret lives

Secret lives, secret lives
Secret lives, secret lives
Secret lives, secret lives
Secret lives, secret lives...
