

# Secret Lives

Electric Light Orchestra

I don't know,  
I don't know what's on your mind  
I thought everything was fine,  
But it was my surprise

I don't know,  
I don't know what's going on  
Something surely must be wrong,  
You're living secret lives

Living secret lives, secret lives  
And I wonder where she goes to in the night  
In secret lives

Wish I knew,  
Wish I knew where I fit in  
Wish that I knew everything  
About your secret lives

If it means,  
If it means that much to you  
I don't want to stop the things you do  
I don't need alibis

Living secret lives, secret lives  
And I wonder where she goes to in the night  
In secret lives

I don't care,  
I don't care what goes on there  
As long as one day I can share,  
Share your secret lives

Living secret lives, secret lives  
And I wonder where she goes to in the night  
In secret lives

Secret lives, living secret lives  
And I wonder where she goes to in the night  
In secret lives

Secret lives, secret lives  
And I wonder where she goes  
In secret lives

Secret lives, secret lives  
Secret lives, secret lives  
Secret lives, secret lives  
Secret lives, secret lives...
