

# The Lights Go Down

Electric Light Orchestra

One day  
I gotta get out of here  
I gotta make everything clear  
I gotta see you, oh, oh.

I know  
The way that I feel is wrong, so wrong  
But I gotta carry on  
When you ain't around.

I believe things are going wrong  
And the night goes on and on  
All your dreams have flown away  
And the sun won't shine today.  
The lights go down (I want you, baby)  
The lights go down (I need you, baby)  
The lights go down  
And there's no one around.

I know  
You're waiting so close to me  
But how will you ever see  
As time rolls away?

Lonely  
But trying to be so proud  
And just as I turn around  
The lights go down.

The lights go down (I want you, baby)  
The lights go down (I need you, baby)  
The lights go down  
And there's no one around...
