

# Without Someone

Electric Light Orchestra

I watch the cars move  
I watch the lights up on the window  
I walk along the street  
I'm only thinking of you  
I watch the clock staring from the wall  
It hardly moves at all  
It's you I'm waiting for

Without someone I can depend on  
I'm lost without someone  
As I go on, I hope you're remembering  
I'm lost without someone

All alone, no one around,  
I watch the shadows falling faster  
The city lights begin to glow  
And then I start to realise  
I count the hours  
As they slip away into another day  
Wondering where you'll stay

Without someone I can depend on  
I'm lost without someone  
As I go on, I hope you're remembering  
I'm lost without someone

Still watching the cars move,  
Still watching the lights upon the window  
I'm walking down the street  
I'm only thinking of you  
I hear the night as it calls to me  
It plays a symphony  
It says you're gone from me

Without someone I can depend on  
I'm lost without someone  
As I go on, I hope you're remembering  
I'm lost without someone

Without someone I can depend on  
I'm lost without someone  
As I go on, I hope you're remembering  
I'm lost without someone

Without someone I can depend on  
I'm lost without someone...
