

Don't Be Afraid of the Robot

Electric Six

You wanna go where the bad girls go
You wanna see what my love can be
And now you're beggin' on your knees
Little child, little sister

Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love

You wanna go where you might get hurt
Feel my hand movin' up your skirt
And now you're getting kinda hot
Little momma, little darling

Oh
Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love

Turn those machines back on
Turn those machines back on
Turn those machines back on
Turn those machines back on

Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love
