

# I Go Through Phases

Electric Six

Don't take away my good time drinking problem  
Don't mind my demons when they speak to you  
One Million marching men ain't gonna stop em  
I'm only doing everything you told me to

I just saw my life flash by my eyes and none of it was good  
I stole some money and told some lies and brought down most of Hollywood  
I thought I heard that rumor too

What's he doing with a broken kid like you  
It's just a phase I'm going through

I get a little crazy crazy in the sunshine  
And I get violent when I hear the moon  
Cause people like you live to kill my good time  
I hope you find what you're after and soon  
Cause this here ship is turning back around and coming back again  
I'm gonna take a bite out of your town  
And then we'll all pretend the burning bush of Israel still blazes

And you know me  
I go through phases  
I go through phases  
I go through phases  
I'm going through a phase

And this time it's not temporary  
My many moods will vary  
Until the end of days  
Until the end of days

The next time you see me you will not see me  
I'm gonna have some more tricks way up my sleeve  
Children wishing they grow up to be me  
Cause the children are the future I believe

You're in my bed, I slam the door  
And I'll shut you out, I show you what my dirty mind is for  
And leave you with no doubt  
This life I live constantly amazing  
It's what I do

I go through phases  
I go through phases  
I go through phases  
I'm going through a phase

And inside my little mystery box is another mystery box  
And that's where my lover stays

Phases, Phases, Phases, Phases,  
Phases, Phases, Phases, Phases,  
Phases, Phases, Phases, Phases,  
Phases, Phases, Phases, Phases,  
Phases, Phases, Phases, Phases
