

Body To Body

Electric Valentine

I'm not in love with you.
But I'm in love with the way you move.
(2x)
Midnight, I walk right passed the line and inside.
Under the flashing lights I saw you.
And want to make my move boy, push right through.
To dance with you, and sweat, just a little bit, just a little bit, just a little bit, just a little bit.
I'm not in love with you.
But I'm in love with the way you move.
(The way you move, the way you move.)
I'm not in love with you.
But I'm in love with the way you move.
(The way you move.)
I'm not in love with you.
But I'm in love with the way you move.
(The way you move, the way you move)
I'm not in love with you, but I'm in love with the way you move.
The way you move, the wave you move. (2x)
On the dance floor, body to body and we're one more.
It's getting hotter and I feel you, and want to, make my move.
You can make yours too, so dance with me and sweat.
Just a little bit, just a little bit,
Yeah.
I'm not in love with you.
But I'm in love with the way you move.
(The way you move, the way you move.)
I'm not in love with you.
But I'm in love with the way you move.
(The way you move.)
I'm not in love with you.
But I'm in love with the way you move.
(The way you move, the way you move)
I'm not in love with you,
But I'm in love with the way you move.
Body to body, body to body, baby.
Body to body, body to body, baby.
(Body, to body baby)
Body to body, body to body, baby.
Body to body, body to body, baby.
(Body, to body baby)
I'm not in love with you.
But I'm in love with the way you move.
(The way you move, the way you move.)
I'm not in love with you.
But I'm in love with the way you move.
(The way you move.)
I'm not in love with you.
But I'm in love with the way you move.
(The way you move, the way you move)
I'm not in love with you,
But I'm in love with the way you move.
The way you move.
I'm not in love with you, but I'm in love with the way you move.
