

## Satanic Rites of Drugula

Electric Wizard

Under Saturn's rays I rest in eternal sleep  
Dopesmoke violates my tomb and awakens me  
Clawing from the grave my batwings spread  
Their blood filled with drugs, so high, so dead

Your dope laced blood shows me new highs  
Bloodlust, druglust, Count Drugula arise...

Strung out on blood I hunt the streets at night  
Terror from the sky in batform I strike  
Your naked body dragged back to my darkened crypt  
I tie you up, dope you up, then your blood I sip

Drugula...
