

## Witchcult Today

Electric Wizard

Come fanatics, come to the sabbath  
Thirteen dressed in black are here  
Screaming, naked our altar  
Kissed by the whi, now satans daughter

Our witchcult grows...

Black goat forms from dopesmoke  
Baphomet we bow to thee  
Higher, higher devils disciples  
Nameless chants breed sorcery

Our witchcult grows...

Father, mother, our brethren your children  
Black masses, black magic, with drugs  
Our witchcult grows...
