

## Heard That

Electrocute

Get it straight don't waste my time I shouldn't know what's on your mind You're no prince you're no Romeo So save your breath and go go!

I'll be sweet, I'll be true and give it all to you (yeah I heard that too many times) you're the best nothing less I'll do it all for you (yeah I heard that one too)

I'm not your usual plaything I could make you spend your life savings But you know I don't care about money Come on and love me love me!

Ahhhhhhhh Aahhhhhhhh

No one else can compare I'll give the world to you (yeah I heard that too many times) You're so pretty little baby all I want is you (well I heard that one too)

Now bring it down to that special place You know the one when I kiss your face Just don't act so serious Hold me tight and I fall all down delirious

I'll be sweet, I'll be true and give it all to you (heard that too many times) you're the best nothing less I'll do it all for you (heard that too)

Don't promise me the world just play with me right now

No one else can compare I'll give the world to you (well I heard that too many times) You're so pretty little baby all I want is you (yeah I heard that one too)
