Electrocute

If you got nothing to say If you got nowhere to play Come with us and you'll get the mood Dance with us and you'll fit the groove

Ring the bell through the door Flash your skin on the floor You heard this and you're hooked on it Hooked ha hooked ha

How can you dance in the back of your car driving down the block while the speaker pop what makes you think you can get that far rollin in your tube top

How can you dance if you never dare Gonna bubble up like a soda pop Rip up your tights and color your hair Pulling up you tube top

Upside down flipping upside down Upside down things are flipping upside down

(Ring the bell through the door Flash your skin on the floor You heard this and you're hooked on it Hooked ha hooked ha)

How can you dance in the back of your car driving down the block while the speaker pop what makes you think you can get that far rollin in your tube top

How can you dance if you never dare Gonna bubble up like a soda pop Rip up your tights and color your hair Pulling up you tube top
