

You don't want me but I don't care
I'm independent when there's no one there
I'm not a substitute and it's wearing thin
Why can't you see that I won't give in
There's a rumor how can it be true
The way that people talk it's as if they knew
And though I try I hope you understand
If I'm alone with you it could get out of hand

Please don't make me wait
In front of you
Love comes too late
We're in a spin
Confused within
It must be fate
Love comes too late

I believe it was meant to be
But when you threw me out I guess it made me see
It would be a drag from my point of view
That's the kind of thing that I'd expect from you
What can I do I'll never be the same
Another day without you would drive me insane
It's a real life drama that I can't work out
Don't think about it let me take you out

Please don't make me wait
In front of you
Love comes too late
We're in a spin
Confused within
It must be fate
Love comes too late
