

Until The End Of Time

Electronic

Not a trace of emotion
Remains inside
Two hearts broken
Lay (set) down by the river side
Single handed
They tried to escape from me (you see)
With a turn of the wheel
It was driving me
Crazy...
This love was born instead of hate
Celebrate our love
Let me feel the right vibration
Celebrate our love
And until the end of time
Celebrate what's mine
Make it good and let it shine
Celebrate our love
Revelation or faith
I just can't decide
Will they drown
In the flow (pull) of the rising tide
There's a side of your life
That you never see
It is real this ordeal
And it's driving me
Crazy...
This love was born instead of hate
Celebrate our love
Let me feel the right vibration
Celebrate our love
And until the end of time
Celebrate what's mine
Make it good and let it shine
Celebrate our love
