

Jumping with your eyes closed, Landing on the sun  
Being young and beautiful, In love with no one  
But yourself

And people tell you you're pretty yeah  
Your smile drives them crazy lady  
You wanna slowly fade away, but you can't, So you stay

Playing for the public, Making them love you  
You're so cruel

And people tell you you're pretty yeah  
Your smile drives them crazy lady  
You wanna slowly fade away, but you can't  
So you stay with me, with me, Bokkie

I'm on an island for two

And people tell tell you you're pretty yeah  
Your smile drives them crazy lady  
You wanna slowly fade away, but you can't  
So you stay with me
