

The Clown

Elefant

Open your mind to the night
Let it all in, then we'll begin
Give me your hand for a while
I'll take you in style,
And show you the world
I don't lie... all the time

If I you give a dose,
Will you come back for me?
Who cares if they know,
They'll just think it's a dream
A beautiful day for sin,
It's the best way to live
You can call me your clown,
I'll bring you straight down

I'll tell you that it's alright
I'll tell you all night,
I'll tell you all night
Don't stop now, it's just a way
A way that we play,
And it's always such a good time
I don't lie

If I you give a dose,
Will you come back for me?
Who cares if they know,
They'll just think it's a dream
A beautiful day for sin,
It's the best way to live
You can call me your clown,
I'll bring you straight down

For a while
I'll bring you down
But in style
It's all in your mind,
It's all in your mind,
It's all in your mind
And I'll walk you straight out that door
I'll walk you right out that door

If I you give a dose,
Will you come back for me?
Who cares if they know,
They'll just think it's a dream
A beautiful day for sin,
It's the best way to live
You can call me your clown,
And I'll bring you all down

Call me your clown,
And I'll bring you straight down
Call me your clown
Call me your clown
