

In Your Mind

Elegant Machinery

Don't believe
in what you hear
no one can hurt you
we won't desert you
Reject those images they brought you
forget those heartaches they gave you
Silence comes
when nighttime falls
we're here to stay with you
until the morning dew
Reject those images they brought you
forget those heartaches they gave you
Once upon a time there was
something good and something strong
although it sometimes might seem wrong
we must once more return to dust
Reject those images they brought you
forget those heartaches they gave you
