

Louder Louder

Elemeno P

I'm a kid who's a mischief maker
First born son of the cabinet maker
27 now, 27 now, 27 now, 27 now
Said I'd always be a trouble maker
One outstanding educator
27 now, 27 now, 27 now, 27 now

We are the children of the right and we turned out all right
We found the cured radio
All the years that go

So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder
So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder
(Louder louder)

Going down town to the mamplincator
Ain't no lovin in this elevator
27 now, 27 now, 27 now, 27 now

There's a monkey on the left hand shoulder
Not much wise but a little bit older

We are the children of the right and we turned out all right
Sold our souls to the radio
My magic means that a shadow

So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder

So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder

So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder

So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder

So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder
So let the broken man ring
Let the melody's sing
Shake it, shake it don't let a little bit louder, louder

A little bit louder, louder
A little bit louder, louder
A little bit louder, louder
A little bit louder, louder
