

Pardon Me

Elemeno P

So simple, when everything's
Incidental
And what we has is a rental
And what we had was a lie

Growing up in the eighties
We're playing happy families
These are the days that made me
These are days I tired
To keep it all alive

Pardon me if I don't make the same
Mistakes
Part of me wants to take all I can take
Pardon me If I gotta be the first to say

This is what we're covering up

So quickly, happen once and it's
History
I don't know if it missed me
And I don't know if it's time

The other end of the candle
I'm still changing channels
Cause quiet time is vandal
It's messing with my mind
If this is the good life?

Pardon me if I don't make the same
Mistakes
Part of me wants to take all I can take
Pardon me If I gotta be the first to say

This is what we're covering up

Don't tell me how it's gonna be it's
Alright
Don't tell me how it's gonna be
(Repeats)

Pardon me if I don't make the same
Mistakes
Part of me wants to take all I can take
Pardon me if I gotta be the first to say

This is what we're covering up
