

## Spite

## Element Eighty

You live in spite  
You live in spite calloused heart

Everything I've done  
All the times you've turned to run  
It will never change  
all the times that you broke my calloused heart

And now it starts to bring me down  
I can feel I'm losing ground  
How long till I face you on my own...calloused heart

You live in spite  
You live in spite calloused heart  
You live in spite  
You live in spite calloused heart  
You are my pistol (calloused heart)  
You live in spite  
You live in spite calloused heart

It won't change  
All the damage done  
Everything that's come and gone  
It will never change  
All I want is to break your  
calloused heart

You live in spite... (1x)

And now it starts to bring me down  
I can feel I'm losing ground  
How long till I face you on my own calloused heart

You live in spite  
You live in spite  
You live in spite You live in spite  
You are my pistol  
You are my pistol (calloused heart)  
You live in spite  
You live in spite calloused heart  
You live in spite  
You live in spite calloused heart  
You are my pistol (calloused heart)  
You live in spite
