

# Close The Door

Eleni Mandell

Close the door  
Forget about the others  
Don't listen to their music  
Don't listen to their radio  
We have no rules to follow  
We don't answer the phone  
It's only what we're looking for

Scratching and screaming  
Oh, floor to ceiling  
Green in the stair way  
Yellow in the corner  
We have no time to get there  
We have no plans to go  
It's only what we're looking for

Won't you tell her you can't see her  
And don't forget me when I go  
Shut the lights, strap me in, hold me tight  
I'm out the window  
I'm out the window

Close the door  
Forget about the others  
Lonely hearts keep looking  
Left alone and loaded  
Appliance in the hallway  
Mirror on the floor  
It's only what we're looking for

Won't you tell her you can't see her  
And don't forget me when I go  
Shut the lights, strap me in, hold me tight  
I'm out the window  
I'm out the window

Close the door  
Forget about the others  
Don't bargain with their business  
Don't purchase what they're pissin'  
We have no rules to follow  
We don't answer the phone  
It's only what we're looking for

Won't you tell her you can't see her  
And don't forget me when I go  
Shut the lights, strap me in, hold me tight  
I'm out the window  
I'm out the window  
I'm out the window  
I'm out the window  
Close the door
