

# Don't Say You Care

Eleni Mandell

Don't say you care  
Then turn away  
Your silent hours  
Turn into days  
Your eyes grow cold  
It's hard to bear  
If you can't let me come close  
Don't say you care

Remember love  
We dared to thrill  
Opened your heart  
And held me near  
But somehow darlin'  
It hurt you to share  
If you can't let me come close  
Don't say you care

I know that real love  
Is hard to find  
I'm just a girl in my heart  
Hoping that someday it will be mine

I guess I'll go on  
While you disappear  
If you can't let me come close  
Don't say you care
