

Sing Forever

Elevation Worship

We were lost but then you rescued us
Through your son, on earth you came
You took our guilt, you took our shame away
With our hands raised high
We shout your praise
Because it's by your blood, by your blood we have been saved

We will sing forever to you God
Because of your great love
We'll lift our lives

On the ground we bow before our king
Lifting up our hearts to you
The one who saved the one who took our blame
With our hands raised high we sacrifice
Because it's by your blood, by your blood we are alive

We will sing forever to you God
Because of your great love
We'll lift our lives

Our God is an awesome God he reigns
From heaven above with wisdom
Wisdom, power and love
Our God is an awesome, awesome God
