

Prom Song

eleventyseven

Places are coming off just in time for prom
This year's undersea theme will be the bomb
Turn the lights down low as the beat drops
Keep the subs maxxed out till we see cops
We'll be shaking this dance floor nonstop

Hey DJ, would you spin something we can dance to?
Drop that needle like you mean it
This could be the last dance we will ever have in high school
So leave the bass ringing in my heart

Me and my date are showing up late tonight
I've got a duct tape tux that glows under neon lights
I'm not lookin for a teenage romance
We can swap off dates for the slow dance
I get nervous when we have to hold hands

Look like we bouncin' in the club like what baby what
Show up rollin' on some dubs like wooha wooha
I be sippin on some punch like pt...ahhh...pt...ahhh
When i'm leanin' on the wall i'm like [insecure]
