

## Purity And Blood

**Elgibbor**

White like purity, red like blood poured out to be free  
They think that they can use the name of God to kill the innocent people  
But they have never really met the one true God  
They used the inquisitions for their own interest and hid behind the reason  
That they were doing it for God  
The True God gave you freedom by letting you choose which road to take  
With only religion there is no freedom  
The truth is found in a true relationship with God
