

All I Wanted

Eli Lieb

Lately I've been looking for you
Cross my fingers that you'll stay awake for me
Hold my breath I'm falling
Underneath I'm dying
And you're closing in on me
I wanna take you I wanna break you

Falling down this black hole road again
There's no way out
I'm naked shaking blood is pounding
You tear me down
You're all I wanted
All I wanted
All I wanted
All I wanted

Lately I've been running circles
Hoping that you'll see me crying out for you
Wait for me I'm crawling
On my knees I'm begging
That you'll stay awake for me
I wanna take you I wanna break you

Falling down this black hole road again
There's no way out
I'm naked shaking blood is pounding
You tear me down
You're all I wanted
All I wanted
All I wanted
All I wanted

I'll close my eyes I'll wait for you
I know you'll hear me crying out
I'll close my eyes I'll wait for you
I know you'll hear me crying out

Falling down this black hole road again
There's no way out
I'm naked shaking blood is pounding
You tear me down
You're all I wanted
All I wanted
All I wanted
All I wanted
