

We Own The Beat

Eli Lieb

Going down the east side everybody stops
We own the streets you and I
We're on our way to the top
I am on fire
You're right next to me
When we are dancing
We own the floor we own the beat

I wanna see your body talk
I wanna feel the dance floor rock
I wanna be the sweat dripping
Wanna be the one you're hustling
I'm gonna be your ecstasy
I'm gonna take you home with me
I'm gonna make you feel the beat
And make you cry out

Going down the west side finding trouble again
You touched me in the day light
Making beats with your hands
I am on fire
You're right next to me
When we are dancing
We own the floor we own the beat

I wanna see your body talk
I wanna feel the dance floor rock
I wanna be the sweat dripping
Wanna be the one you're hustling
I'm gonna be your ecstasy
I'm gonna take you home with me
I'm gonna make you feel the beat
And make you cry out
